2. Hazards Identification

Classification under CLP:-
EUH208

Classification under CHIP:-
This product has no classification under CHIP.

Label elements under CLP:-
Hazard statements:-
EUH208 - Contains preservative 1. May produce an allergic reaction.

Label elements under CHIP:-
Hazard symbols:-
No significant hazard.
Precautionary phrases:-
Contains preservative 1. May produce an allergic reaction.

3. Composition and Ingredients

4. First Aid Measures

After Ingestion:-
Do not induce vomiting. Wash out mouth with water. If conscious, give half a litre of water to drink immediately.

After inhalation:-
Remove casualty from exposure ensuring one's own safety whilst doing so.

After skin contact:-
Remove all contaminated clothes and footwear immediately unless stuck to skin. Wash immediately with plenty of soap and water.

After eye contact:-
Bathe the eye with running water for 15 minutes.

Most important symptoms and effects, both acute and delayed:-

- **Skin contact**:- There may be mild irritation at the site of contact.
- **Eye contact**:- There may be irritation and redness.
- **Ingestion**:- There may be soreness and redness of the mouth and throat.
- **Inhalation**:- There may be irritation of the throat with a feeling of tightness in the chest.
5. Fire Fighting Measures

Suitable extinguishing agents:
Water. Carbon dioxide.

Special hazards caused by the material, its products of combustion or flue gases:
In combustion emits toxic fumes of carbon dioxide / carbon monoxide.
In combustion emits toxic fumes of nitrogen oxides.
In combustion emits toxic fumes of sulphur oxides.

Protective equipment:
Wear self-contained breathing apparatus.

6. Accidental Release Measures

Person-related safety precautions:
Refer to section 8 of SDS for personal protection details.

Measures for environmental protection:
Do not discharge into drains or rivers. Contain the spillage using bunding.

Measures for cleaning/collection:
Absorb into dry earth or sand. Wash the spillage site with large amounts of water.

7. Handling and Storage

Handling:
Information for safe handling:
Ensure good ventilation/exhaustion at the workplace.

Storage:
Requirements to be met by storerooms and containers:
Store in cool, well ventilated area.

Suitable packaging:
Polyethylene. Stainless steel.

8. Exposure Controls

<table>

Additional information about design of technical systems:
Ensure there is sufficient ventilation of the area.

Personal protective equipment:
General protective and hygienic measures:
The usual precautionary measures should be adhered to in handling the chemicals.
Instantly remove any soiled and impregnated garments.
Wash hands during breaks and at the end of the work.

Breathing equipment:
Respiratory protective device with particle filter.

Protection of hands:
Protective gloves.

Eye protection:
Safety goggles. Ensure eye bath is to hand.

Body protection:
9. Physical and Chemical Properties

10. Stability and Reactivity

Reactivity:-
Stable under recommended transport or storage conditions.

Chemical stability:-
Stable under normal conditions.

Hazardous reactions:-
Hazardous reactions will not occur under normal transport or storage conditions.

Conditions to avoid:-
Heat.

Materials to avoid:-

11. Toxicological Information

Skin contact:-
There may be mild irritation at the site of contact.

Eye contact:-
There may be irritation and redness.

Ingestion:-
There may be soreness and redness of the mouth and throat.

Inhalation:-
There may be irritation of the throat with a feeling of tightness in the chest.

12. Ecological Information

Ecotoxicity values:-
Not applicable.

Persistence and degradability:-
Only slightly biodegradable.

Bioaccumulative potential:-
No data available.

PBT identification:-
This substance is not identified as a PBT substance.

13. Disposal Considerations
Disposal of packaging:-
Dispose of as normal industrial waste.
NB:-The user’s attention is drawn to the possible existence of regional or national regulations regarding disposal. Recommendation

14. Transport Information

Transport class:-
This product does not require a classification for transport.

15. Regulatory Information

Chemical safety assessment:-
A Chemical Safety Assessment has not been carried out by the supplier.

16. Other Information

Other information:-
This safety data sheet is prepared in accordance with Commission Regulation (EU) No 453/2010.

Phrases used in s.2 and 3:-
EUH208:-Contains <name of sensitising substance>. May produce an allergic reaction.
R34:-Causes burns.
R43:-May cause sensitisation by skin contact.
R50:-Very toxic to aquatic organisms.

Legal disclaimer:-
Mouldlife Limited shall not be held liable for any damage resulting from handling or from contact with the above product.
